

CPO & Supply Chain Sustainability Network

S·HUB®

Sustainability Hub
Norway

S-HUB was founded in
March 2017 as a
non-profit corporate
knowledge network to
**accelerate sustainable
business in Norway.**

“To provide a safe space and solution-oriented arena for supply chain and purchasing professionals looking for practical insight, knowledge transfer and learning on the topic of sustainability, specifically relevant for their roles”

NETWORK OBJECTIVE

S·HUB®
Sustainability Hub
Norway

*“To encourage and enable CPOs, Supply Chain Executives and other decision makers in the field to **contribute to corporate sustainability transformations** by reconfiguring supply chains and procurement functions to be more inclusive, resilient and transparent”*

OUR AMBITION

S-CPO

CPOs and Supply Chain Executives building strategic sustainability into the procurement function and across supply chains.
By S-HUB and EcoVadis.

(Members of the network will continue to be added on a rolling basis as we approach the launch of the network)

S-CPO

Strategic Board

Caroline Bergrem (Chair)
Vice President, Supply Chain
Sustainability, DNB

Edit König-Bihari
Senior Sustainability
Specialist, Danske Bank

Gisle Hauge (Vice Chair)
Chief Procurement Officer,
Fjordkraft

Cato Gundersen

Lyse

The network offers...

Insight into relevant sustainability

trends, new research and inspiring examples from leading experts and companies in the field.

Practical knowledge and useful tools

for how to better integrate sustainability into the daily work and responsibilities of supply chain and purchasing professionals.

Cross learning and peer discussions

of solutions, best practices and how to strengthen your company's strategic work with sustainability.

S·HUB

Network format and activities

- Network gatherings will be on a quarterly basis, four times per year.
- Meetings will be conducted digitally until further notice, with aims of meeting in person 1-2 times a year once possible. Digital gatherings last up to 2 hours.
- Network activities and possible additional gatherings include larger events or smaller meetings such as roundtable conversation to share knowledge and best practices.
- The network will be composed of ambitious practitioners, as well as leading academics and experts in sustainable purchasing and supply chain management.
